Test Project: Booking.com QA Project

Test project for Hotel Search and Results flow in Sri Lanka regions.

Test Plan: Booking.com Hotel Search Functionality Test Plan - Oct-Dec 2025

Build: Booking.com – Live Production 2025.11

Build Overview: This build is the current live version of Booking.com as of November 03, 2025. It is the baseline for executing the 50 positive test cases derived from the MindMup mind map. All searches use future 2025 dates.

Included Features

• Destination autocomplete (Kandy, Galle, etc.)

• Calendar locked to 2025 dates only

• Smart room logic: 6A-5C → max 6 rooms

• Child-age pop-up when 1+ children selected

Test Environment

• URL: https://www.booking.com

• Browsers: Chrome 130+, Firefox 129+

• Mode: Incognito (no cookies)

Dependencies

• No custom packages; relies on Booking.com live API/UI

Fixes/Changes Since Last Build

• (initial build) – first execution

Approvals Status

• Approved by QA Lead for execution starting Nov 03, 2025

Risks/Notes

• Availability fluctuates; use incognito for consistency

• Reference: mindmup.map.pdf for full traceability

Close build when 90% cases are Passed.

1.1.Test Suite : Kandy

1.1.1.Test Suite : 27 Oct - 2 Nov

1.1.1.1.Test Suite : 6 Adult - 5 Children

Test Case QA001-1: TC001 **[Version : 1]**				
Author:	admin			
Preconditions: Open Chrome in Incognito mode. No login. Use Booking.com production site (2025.10+ build). Sri Lanka IP (or VPN) is recommended for accurate results.				
#:	Step actions:	Expected Results:	Execution notes:	Execution Status:
1				Passed
2	1. Navigate to https://www.booking.com 2. Enter 'Kandy' in the destination search box. 3. Select check-in date as 27 Oct 2025 and check-out as 2 Nov 2025. 4. Click on the occupancy field to open the guest selection. 5. Set number of adults to 6, number of children to 5 (ages 5,5,5,7,10), rooms to 3. 6. Click the 'Search' button.	1. The Booking.com homepage loads successfully without errors. The page displays the main search form with fields for destination, dates, occupancy, and a "Search" button. 2. The input field accepts the text. Autocomplete suggestions appear, including "Kandy, Sri Lanka" as a top option. 3. The calendar opens and allows selection of future dates. The selected dates are displayed in the form as "27 Oct 2025 - 2 Nov 2025". The duration is 6 nights. 4. The guest selection popup opens, displaying adjustable counters for adults, children, and rooms. 5. The adults count updates to 6, children to 5, rooms to 3. Child age dropdown appears. 6. The search submits successfully, URL contains &checkin=2025-10-27&checkout=2025-11-02&group_adults=6&group_children=5&no_rooms=3. Results show hotels with “3 rooms left” badge.	7.	Passed
